

YMPACTUS

I N V E S T W I T H I M P A C T

WHO ARE WE?

Ympactus was born with the mission of boosting the financial future of people and companies through innovation, technology and strategic investments. We are pioneers in combining crypto assets and arbitrage, creating real opportunities for growth and prosperity.

OUR TEAM

Composed of experts in blockchain, finance and technology development, our team is committed to providing an environment of trust, transparency and results. At Ympactus, we believe in the strength of a global community, providing high-performance solutions to help each participant achieve their goals.

WHAT SETS US APART?

01

Constant Innovation: We use artificial intelligence and advanced algorithms to identify the best investment opportunities.

02

Transparency: Clear and accessible processes, ensuring security in all operations.

03

Empowerment: We value the continuous development and growth of each participant.

04

Global Vision: We connect investors and entrepreneurs to the crypto universe, creating an inclusive platform full of possibilities.

ACTIVE MARKET

The cryptocurrency market is one of the most dynamic in the world, with significant growth in recent years. Here are some highlights:

01

Current Market Value: Estimated between US\$1.5 to 2 trillion.

02

Projections for 2025: Market capitalization could exceed \$2.5 trillion, expanding arbitrage opportunities due to increased volumes and asset diversity.

With Ympactus, you invest your capital and we operate it in the arbitrage market, identifying price differences between different exchanges. This strategy generates daily profitability throughout the period in which your capital remains active on our platform.

THE YMPACTUS OPPORTUNITY

HOW IT WORKS:

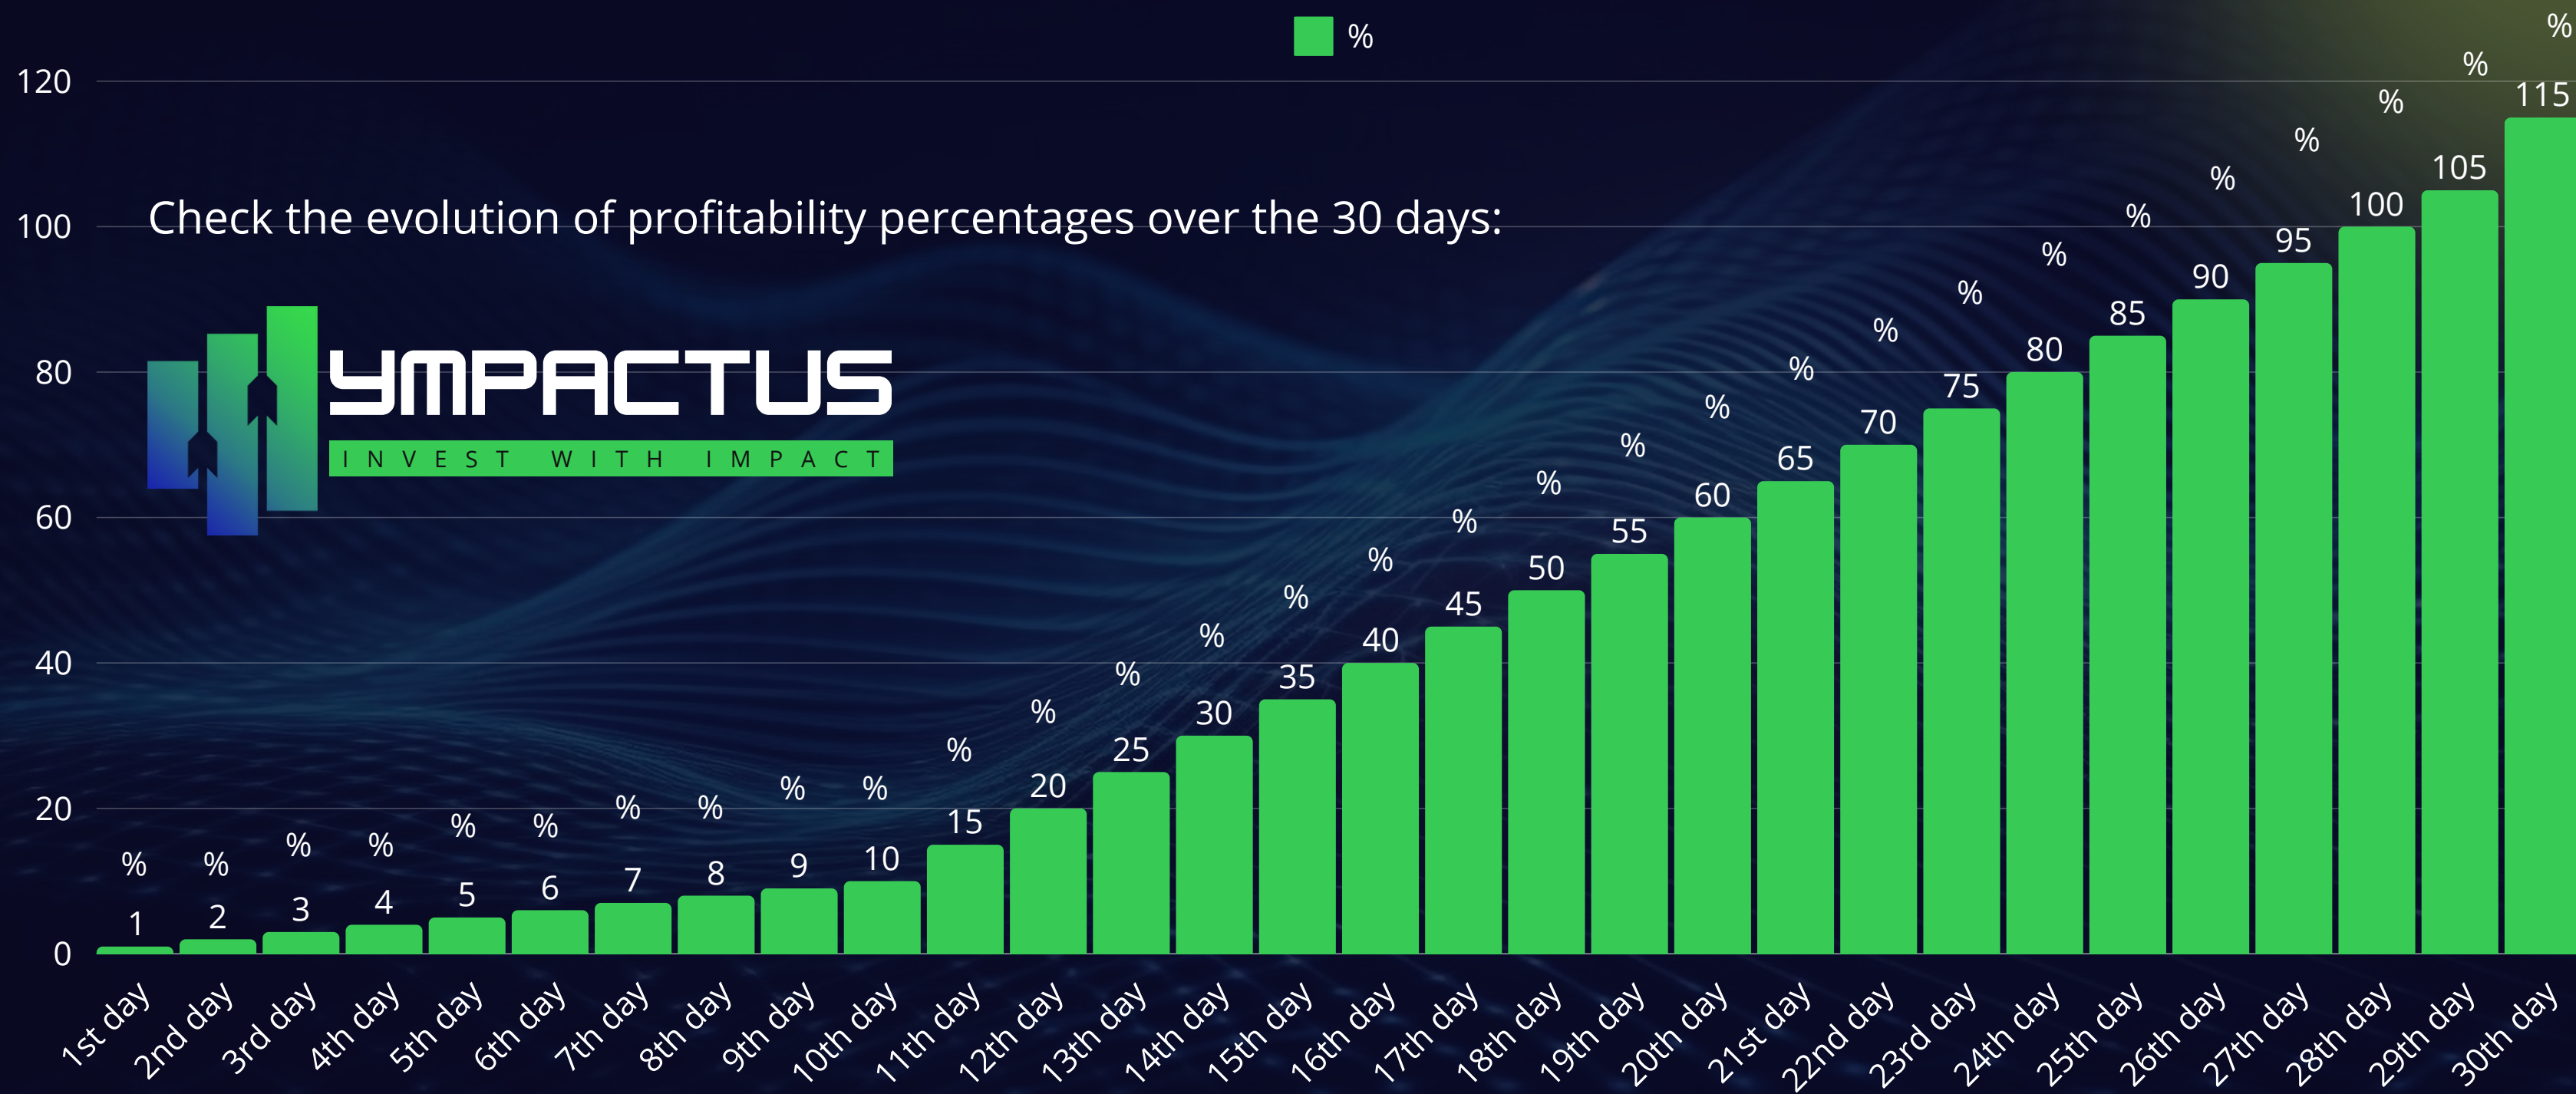

- Initial investments:
US\$ 10, US\$ 30, US\$ 50, US\$ 100, US\$ 200 ou US\$ 500.
- **30-day plan: Progressive profitability that increases according to the capitalization time.**
- Each user can have up to two active plans of each value.

Example:

Up to 2 plans of \$20 Up to 2 plans of \$100 Up to 2 plans of \$500

This limitation is by value range, that is, you can activate multiple plans within the same value, but you cannot exceed the limit of two plans for each specific value.

PROGRESSIVE PROFITABILITY PLAN (30 DAYS)

You determine your profitability and investment time in Ympactus.

01. Profitability grows progressively every day, reflecting the capitalization time and arbitrage opportunities in the crypto market.

02. The total gain is determined by the sum of the daily percentages at the end of the period in which your investment remains on the platform.

03. You are free to choose how long you want to leave the amount invested, according to your return strategy.

REFERRAL EARNINGS

1st LEVEL

- **12% when you are active on the platform.**
- **6% if not active. In this case, you will not be entitled to earnings from other levels.**

2ND TO 5TH LEVEL

Commissions of 6%, 4%, 2% and 1%, respectively.

**2nd=6%, 3rd=4%,
4th=2%, 5th=1%**

ADDITIONAL BONUS

By activating 8 direct referrals, you unlock 5 more levels (6th to 10th), with an additional 1% commission per level.

ACTIVATION AND WITHDRAWAL RULES

Instant Activation

Investment can be made via PIX or USDT, and your account is activated immediately after confirmation of the deposit, allowing you to start generating profitability and commissions without delay.

PROFIT WITHDRAWALS

- **Opening hours: 8am to 11pm.**
- **Withdrawal Fee: 3.5% of the requested amount.**
- **Processing: The order is processed quickly, and the profit is available within 24 hours.**
- **Minimum withdrawal \$10.**

REDEMPTION OF CONTRIBUTION (INVESTED CAPITAL)

- To withdraw the amount originally invested, you must wait 48 business hours after the request for the capital to be released.
- If you prefer to maintain the contribution, it will continue to yield interest according to the rules of the contracted plan.

CONTRACT OF 30 DAYS

Understand how it works.

1. 30 Day Contract

- You invest and start a 30-day cycle, with profitability generated daily until the end of that period.

2. Withdrawal Option If you decide to withdraw before the 30 days are up, there are three options:

a) You can only withdraw earnings, according to the daily earnings rules. After withdrawal, the earnings cycle automatically restarts from day 1, following the increasing table until the remaining period of the 30-day contract is completed. For example: if you withdraw earnings after 10 days, you will receive 10%, and the earnings will restart from day 1, completing the remaining 20 days of the cycle.

B) Cancel the contract:

You can withdraw the income accumulated up to the chosen date, together with the initial capital invested.

C) Full withdrawal after 30 days:

At the end of the 30-day cycle, you can withdraw 100% of your earnings, totaling a maximum gain of 115% (yield + initial capital). In addition, you have the option to reinvest both the income and the initial capital.

*Note that reinvesting income or root generates 50% of the original Unilevel bonuses from 1st to 10th level.

THE SUCCESS

HAPPENS WHEN YOU PREPARE YOURSELF FOR THE
OPPORTUNITIES THAT LIFE OFFERS.

At Ympactus, we make sure you're ready for every new opportunity for growth. Join us and be part of a community that's redefining the future of finance with transparency, innovation, and solid results.

Your path starts now!
